Prices and purchase plans

High productivity in our delivery and support processes ensure that prices are always competitive. There are no hidden costs. We will invoice in British Pounds, US Dollars, Euros and most local currencies as required - payments can be made electronically using an international wire transfer. VAT is applicable at the standard rate to orders from within the U.K.

Prices for: [Quartet Digital Asset Management - Online Library - iBase Manager - REST Server software](#)

iBase Quartet - digital asset management

Quartet can be hosted in your own I.T. environment or with iBase. Hosting with iBase includes a SQL Server database, if hosting in your own environment you will need to provide a SQL database.

Option 1: Quartet Swift - cost effective, up and running fast

- **£2,950** - outright purchase and nothing more to pay. Or, optionally and if hosted by iBase - **£750** on order then four quarterly payments of **£550**.
- [Check what you get](#) with Quartet Swift.
- *Included at no additional cost* - Swift pre-configuration; custom configuration of an upload page; advanced search and additional data fields; deployment & online training.
- *Options* - additional configuration; branding; onsite training; annual support agreement; hosting by iBase.

Option 2: Quartet - custom configured entirely to your specification

- Custom configuration prices depend upon the amount of configuration work required, and for **low** to **medium levels** of **configuration** they are within the range **£5,000 - £8,000**. This is for outright purchase and nothing more to pay, see also [subscription](#) and [deferred payment](#) plan options from **£500** initial set-up.
 - *Included at no additional cost* - database design; deployment; online training; basic web / intranet branding - including the top banner, fonts and background colours.
 - *Options* - additional configuration and branding; onsite training; annual support agreement; hosting by iBase.
-

iBase Online Library

Online Library can be hosted in your own I.T. environment or with iBase. Hosting with iBase includes a SQL Server database, if hosting in your own environment you will need to provide a SQL database.

Custom configuration - entirely to your specification

This PDF is direct from a website and has imperfect formatting. You can view the original page at www.ibase.com

- Custom configuration prices depend upon the amount of configuration work required, and for **low to medium levels of configuration** they are within the range **£7,000 - £13,000**.
